

16 October 1972

MEMORANDUM FOR:

[REDACTED]

C/CCG

STAT

SUBJECT:

The NIPM

1. Now that we have put the NIPM to bed, let me tell you and [REDACTED] and the other members of your Group what an excellent job I think it was. I have no illusions about how difficult a ground-breaking exercise this was the first year. We had no guidelines, lots of doubting Thomases and some semi-formed convictions to help us on our way, and I think you can be very pleased with what you produced.

STAT

2. I saw the Director this morning and he went out of his way to be complimentary about the Memorandum, and mildly ecstatic about its physical appearance. On this latter point [REDACTED] [REDACTED] take practically all the credit, both for good professional work and some heavy overtime labor at the end.

STAT  
STAT

3. To all and sundry, my warm appreciation.

(Signed) Bronson Tweedy
